EXPERIENCE

IoT Engineer Intern

PT. Merapi Tani Instrument / Yogyakarta

since December 2019 to March 2020 I follow the internship program at PT. Merapi Tani Instrument. It's a startup who make IoT device to help the agriculture industries. I learn a lot there. From it I have an interest about program & technology. We play arduino and some sensor to make a cool IoT device. I think it such a good experience

IT Support Intern

PT. Akastra Toyota / Jakarta

since September 2020 to March 2021 I follow the internship program at PT. Akastra Toyota. It's one of Authorized Toyota Dealer at Jakarta. As IT Support I work with networking, troubleshooting computer and printer and another IT jobs.

IT Support

PT. Akastra Toyota / Jakarta

After Internship program I continue to work as IT Support. But I am create a few program too. I make company profile website. Android Application for checksheet. And others program.
